

CaluGuard Basic 100 beard mask non woven with elastic 100 pcs

The CaluGuard Basic 100 beard mask is an essential hygiene product for the food industry, providing crucial protection against contamination. The masks are designed to be comfortable and snug, ensuring that employees can stay safe and productive during their shifts. The CaluGuard masks fully cover the wearer's hair, creating a barrier between their hair and the food they prepare or package. This prevents any hair from getting into the food, which is vital for food safety. With CaluGuard, you can minimize the risks of contamination without compromising on comfort or performance.
