

3M Food Safety
Sample Bags, Filter Bags

Where **Quality**
and **Reliability** are in the Bag!

3M

3M Sample Bags and 3M Filter Bags

Easy to open and simple to use

- Available with or without Filter, sized to fit any 400 ml Homogenizer machine
- Filter allows for separation of the liquid extract from sample solids, thereby preventing pipette blockage
- Filter with solid debris maybe easier removed if desired
- Bags slide easily for quick access

Strong enough to endure the sample Preparation process, even at low temperatures

- Thick 3 mil polyethylene for toughness
- Additional additive for increased elasticity
- Extra wide 4 mm heat seal is designed to prevent leaking
- Filter section of the bag is made of durable, perforated polythene to give extra reinforcement and support during the blending process

No worries about prior contamination of the bag

- Gamma irradiated

Backed by 3M's quality reputation

- Manufactured with proven experience and uncompromising quality
